

# HAVE YOU BEEN DIAGNOSED WITH BREAST CANCER SINCE 2011?

Researchers at Memorial University of Newfoundland are conducting a research project on:

## **"Breast cancer surgical treatment choices in Newfoundland and Labrador: Patient and Surgeon perspectives"**

We are looking for women who have had this diagnosis and who would be willing to meet with the researchers for about 90 minutes in a group setting or individually to discuss topics such as your:

1. Prior cancer experience
2. Type of surgery you had
3. How you made that decision
4. Plus other similar topics related to this time in your life

**If you would like further information or would like to take part, please call or email Charlene at:**
