

For Immediate Release
July 24, 2020

PUBLIC ADVISORY

COVID-19 screening at designated entrances

Labrador-Grenfell Health continues to improve access at our facilities while maintaining necessary precautions.

Effective July 27, 2020, screening tables will no longer be located at the designated facility entrances.

- Clients and patients will be screened through a series of questions when they call to book an appointment.
- Clients and patients will also be screened when they register for their appointment.
- When entering our facilities through the designated entrance, we ask that you use the hand sanitizer and don a mask available at those entrances.
- Masks are required in all our facilities.

We ask that the public continue to respect social distancing measures, answer screening questions, follow instructions provided and stay home if you are sick.

We would like to thank the public for their patience and support during the COVID-19 pandemic.
