

HOW TO GET THE SHOT IN YOUR COMMUNITY: COVID-19 VACCINE FOR CHILDREN 5 TO 11 YEARS OLD

Delivery: School-based and Community-based clinics

- Labrador-Grenfell Health is coordinating community-based clinics to provide children 5 to 11 years of age the COVID-19 vaccine. Please see the schedule below for community-based clinics.
- Clinics will also be offered in all schools in the region. Letters will be sent home with dates and times for these clinics for parents/guardians to choose if this route is the best option for you and your child.
