

PUBLIC ADVISORY

Labrador-Grenfell Regional Health Authority Undertaking Preliminary Review within Diagnostic Imaging

August 23, 2022 – Happy Valley-Goose Bay, NL: Labrador-Grenfell Health is advising they are conducting a preliminary review given a potential issue identified by Central Health with select mammography results. Labrador-Grenfell Health will provide a public update early next week on whether further analysis is required.

Labrador-Grenfell Health appreciates the importance of completing this work in a timely-manner to address any potential concerns of patients, and thanks them for their patience. At this time, patients do not need to contact their primary care provider or the regional health authority.
